**Creativity:** Your work displays extreme effort. All directions were followed. You used all the time you had in class to enhance and perfect your composition. It is obvious that extreme energy and focus went into the creation of this project.

**Color, lighting, scale & techniques:** An excellent and effective application of color. You have blended your colors and there are very few areas of one solid color. You have created a range of color and value. You were observant of your light source. It is obvious you were mindful of your light source when looking at your use of values in your work. All objects show highlights, shadows, mid-tones, etc. and are shown in your work. You have utilized perspective to create a foreground, middle-ground, and background. It is obvious you understand how to incorporate depth on a two dimensional surface. Refined use of techniques, blending, gradation, textures, mark making. It is obvious you experimented with mark making. Your blending and gradation transitions are refined.

**Interpretation of Surrealism:** It is obvious you have created a surrealistic composition. You have incorporated fantasy dreamlike imagery. You have juxtaposed images together to create dreamlike imagery. Images are arranged in a visually interesting composition.

**Overall Composition & Craftsmanship:** You have covered your whole file with your design. There are no "blank" areas. The viewer's eye is led all around your composition. You were aware of your focal point and you've used an effective use of positive and negative space. Your project is neat, clean, and

complete. You were skillful in the use of the PhotoShop techniques. All elements on the file appear to be intentional.
